Five Essential Rules for Genealogy

Are you frustrated with searching for members of your family tree? Often family historians and genealogists alike face the proverbial brick wall due to overlooked sources of information.

While oral history is always the best first step to finding out about your family, these five essential rules, formulated by William Dollarhide, give the family historian a fresh view on where to search for those elusive ancestors. Bring your own brick walls, and learn to climb them! These programs are free and open to the public.

Saturday, September 11, 2 pm

Tuesday, September 14, 7 pm

Rhodes Room, Main Library, Newton
